The **Cradle™ Baby Bowl** was developed in collaboration

with the labor and delivery nursing team at St. Joseph's in Baltimore, Maryland. The hospital needed a solution that was integrally mounted, seamless and provided the proper ergonomic support for a newborn. ASST created a design for St. Joseph's utilizing our patented thermoforming technologies that not only satisfied their needs, but has also provided a product solution for other hospital systems nationwide.

Advantages:

- Superior design utilizing ASST's patented technologies.
- Fabricated from nonporous, seamless solid surface material.
- Durable, stain-resistant and easy to clean.
- Bowl does not support the growth of micro-organisms.
- **Available in LG HI-MACS® Health Care Collection (Group C) and (Group A) colors: Arctic White, Cream and Almond.**

Sink drain hole is nominally 1-3/4" diameter and will accept all standard vanity drain hardware.
